## Aimpoint T-2 Magnifier Mount H57mm/2.25" 0MIL

Mount for Aimpoint Micro T-2/CompM5 and 3X MAG Magnifier

Height: 50 mm / 1.95" to 81 mm / 3.18"  
Length: 87 mm / 3.30"  
Width: 45 mm / 1.78"  
Weight: 155 g / 5.5 oz  
EAN: 7340150702151

The **SM-2025 Aimpoint T-2 Magnifier Mount H57mm/2.25" 0MIL** is a 57 mm high fixed mount for the Aimpoint® Micro® T-2™ and CompM5™ red dot sights (the height is measured from the top of the rail to the centerline of the optic) with a foldable yoke assembly for an Aimpoint® 3XMag™ Magnifier.

The **SM-2025** consist of a **SM-2005** mount and a **SM-2015** magnifier yoke assembly, which allows the user to attach an Aimpoint® 3XMag™ Magnifier, etc., to the SM-2005. The magnifier can then be shifted from the up/use position to the down/stowed position, depending on the operator's requirement, or it can be removed all together – all without the need for tools.

The mount body also features a see-through channel, allowing M4-height iron sights to be used with the mount in place, when the SM-2015 magnifier yoke is not attached to the mount.

### NOTE:

The SM-2025 is designed for use with red dot sights featuring the Aimpoint Micro footprint and the same optical axis as the CompM5 and T-2 on rifles with MIL-STD-1913 or STANAG 4694 rails.

The mount and yoke are machined from 7075 T651 aluminum alloy and are hardcoat anodized, with hardened stainless steel locking parts. The mount uses two 10.9 Grade M5x25 and two M4x10 Torx 20 fasteners, which are Zinc-Nickel treated for corrosion protection and waxed for proper torque values.

Included with the mount are five Torx 10 screws for attaching the optic to the mount.
